LIST OF CONTENTS—VOLUME 15

NUMBER 1

Editorial

R. T. RUBIN — 1 — 1990 Miscellany

Review

L. GOOREN — 3 — The endocrinology of transsexualism: a review and commentary

Reports

A. CAVALLO, M. A. CARSKADON, M. R. ROSEKIND and G. CATTELL-HARVEY — 15 — Sleep, clonidine, and their interactive effect on growth hormone secretion in normal men

A. L. LOPEZ, R. G. KATHOL and R. NOYES, JR — 23 — Reduction in urinary free cortisol during benzodiazepine treatment of panic disorder

M. MAES, L. MAES and E. SUY — 29 — Symptom profiles of biological markers in depression: a multivariate study

H. V.D. HELM-HYLKEMA, J. F. ORLEBEKE, L. A. ENTING, J. H. H. THIJSSEN and J. VAN REE — 39 — Effects of behaviour therapy on migraine and plasma β-endorphin in young migraine patients

G. SANDERS, J. FREILICHER and S. L. LIGHTMAN — 47 — Psychological stress of exposure to uncontrollable noise increases plasma oxytocin in high emotionality women

A. WASSEF, E. M. SMITH, R. M. ROSE, R. GARDNER, H. NGUYEN and W. J. MEYER — 59 — Mononuclear leukocyte glucocorticoid receptor binding characteristics and down-regulation in major depression

C. M. MCCORMICK, S. F. WITELSON and E. KINGSTONE — 69 — Left-handedness in homosexual men and women: neuroendocrine implications

D. E. SANDBERG, H. F. L. MEYER-BAHLBURG, T. S. ROSEN and H. L. JOHNSON — 77 — Effects of prenatal methadone exposure on sex-dimorphic behavior in early school-age children

Short Communication

R. B. ROSSE, J. MASTROPAOLO, M. R. NOVITZKI and S. I. DEUTSCH — 83 — Depot testosterone attenuates the anticonvulsant effect of flurazepam in mice

Announcements

87 — XXI Congress, International Society of Psychoneuroendocrinology

87 — 1991 Curt P. Richter Prize in Psychoneuroendocrinology

88 — 100th Anniversary, Department of Psychiatry, University of Liège

88 Fourth Conference on the Neurobiology of Learning and Memory

88 Annual Meeting, Society for Light Treatment and Biological Rhythms

Software Survey Section I

NUMBER 2

Review

I. N. FERRIER and A. LEAKE — 89 Peptides in the neocortex in Alzheimer's disease and ageing

Reports

E. HAMPSON — 97 Estrogen-related variations in human spatial and articulatory-motor skills

K. P. MAGUIRE, V. M. TUCKWELL, I. SCHWEITZER, J. W. G. TILLER and B. M. DAVIES — 113 Dexamethasone kinetics in depressed patients before and after clinical response

S. KARHUVAARA, A. KALLIO, M. KOULU, H. SCHEININ and M. SCHEININ — 125 No involvement of α_2-adrenoceptors in the regulation of basal prolactin secretion in healthy men

R. G. LAESSLE, R. J. TUSCHL, U. SCHWEIGER and K. M. PIRKE — 131 Mood changes and physical complaints during the normal menstrual cycle in healthy young women

L. VÉCSEI and E. WIDERLÖV — 139 Effects of somatostatin-28 and some of its fragments and analogs on open-field behavior, barrel rotation, and shuttle box learning in rats

E. PRZEGALINSKI and L. JAWORSKA — 147 The effect of repeated administration of antidepressant drugs on the thyrotropin-releasing hormone (TRH) content of rat brain structures

Short Communications

O. M. WOLKOWITZ, N. M. PAPADOPOULOS, R. COSTELLO, A. BREIER, A. R. DORAN, D. PICKAR and D. RUBINOW — 155 Prednisone effects on blood-brain barrier permeability and CNS IgG synthesis in healthy humans

M. BIXO and T. BÄCKSTRÖM — 159 Regional distribution of progesterone and 5α-pregnane-3,20-dione in rat brain during progesterone-induced "anesthesia"

Announcements 163

Upcoming Issues 164

NUMBER 3

Reports

E. A. YOUNG, R. L. SPENCER and B. S. MCEWEN — 165 — Changes at multiple levels of the hypothalamo-pituitary adrenal axis following repeated electrically induced seizures

K. VOIGT, M. ZIEGLER, M. GRÜNERT-FUCHS, U. BICKEL and G. FEHM-WOLFSDORF — 173 — Hormonal responses to exhausting physical exercise: the role of predictability and controllability of the situation

M. MORRIS, P. SALMON, H. STEINBERG, E. A. SYKES, P. BOULOUX, E. NEWBOULD, L. MCLOUGHLIN, G. M. BESSER and A. GROSSMAN — 185 — Endogenous opioids modulate the cardiovascular response to mental stress

M. CLODORÉ, J. FORET, O. BENOIT, Y. TOUITOU, A. AGUIRRE, G. BOUARD and C. TOUITOU — 193 — Psychophysiological effects of early morning bright light exposure in young adults

C. CARANI, J. BANCROFT, G. DEL RIO, A. R. M. GRANATA, F. FACCHINETTI and P. MARRAMA — 207 — The endocrine effects of visual erotic stimuli in normal men

G. N. M. GURGUIS and T. W. UHDE — 217 — Plasma 3-methoxy-4-hydroxyphenylethylene glycol (MHPG) and growth hormone responses to yohimbine in panic disorder patients and normal controls

D. L. COPOLOV, N. A. KEKS, J. KULKARNI, B. S. SINGH, D. MCKENZIE, P. MCGORRY and C. HILL — 225 — Prolactin response to low-dose haloperidol challenge in schizophrenic, non-schizophrenic psychotic, and control subjects

Short Communication

I. M. MCINTYRE and C. MORSE — 233 — Urinary 6-sulphatoxy melatonin levels within the menstrual cycle and in patients with premenstrual syndrome

Announcements — 237

Upcoming Issues — 237

ISPNE Membership Form

NUMBER 4

J. J. BRASZKO and K. WIŚNIEWSKI — 239 — α_1 and α_2-adrenergic receptor blockade influences angiotensin II facilitation of avoidance behavior and stereotypy in rats

M. E. TANCER, M. B. STEIN and T. W. UHDE — 253 — Growth hormone (GH) response to clonidine and growth hormone releasing factor (GRF) in normal controls

V. Coiro, M. Passeri, L. Capretti, G. Speroni, C. Davoli, C. Marchesi, G. Rossi, L. Camellini, R. Volpi, E. Roti and P. Chiodera — 261 — Serotonergic control of TSH and PRL secretion in obese men

F. Facchinetti, A. D. Genazzani, E. Martignoni, L. Fioroni, G. Sances and A. R. Genazzani — 269 — Neuroendocrine correlates of premenstrual syndrome: changes in the pulsatile pattern of plasma LH

A. Ulloa-Aguirre, J. Tarrasó, J. P. Mendez, J. Garza-Flores, V. Díaz-Sanchez and G. Perez-Palacios — 279 — Changes in the responsiveness of prolactin secretion to dopaminergic blockade and TRH stimulation throughout sexual maturation in men

R. Valcavi, M. Zini and I. Portioli — 287 — Triiodothyronine administration reduces serum growth hormone levels and growth hormone responses to thyrotropin-releasing hormone in patients with anorexia nervosa

C. Kirschbaum, R. Steyer, M. Eid, U. Patalla, P. Schwenkmezger and D. H. Hellhammer — 297 — Cortisol and behavior: 2. Application of a latent state-trait model to salivary cortisol

Short Communication

A. K. Upadhyaya, J. F. W. Deakin and I. Pennell — 309 — Hormonal response to L-tryptophan infusion: effect of propranolol

Book Review — 313 — *Mammalian Reproductive Biology*

Announcements — 315

ISPNE Membership Form

NUMBERS 5 & 6

T. E. Orr, J. L. Meyerhoff, E. H. Mougey and B. N. Bunnell — 317 — Hyperresponsiveness of the rat neuroendocrine system due to repeated exposure to stress

J. G. Pfaus, S. D. Mendelson and A. G. Phillips — 329 — A correlational and factor analysis of anticipatory and consummatory measures of sexual behavior in the male rat

A. Armario, J. Marti and M. Gil — 341 — The serum glucose response to acute stress is sensitive to the intensity of the stressor and to habituation

F. Drago, L. Pulvirenti, F. Spadaro and G. Pennisi — 349 — Effects of TRH and prolactin in the behavioral despair (swim) model of depression in rats

G. Hasey and I. Hanin	357	Plasma corticosterone is increased and correlated with brain acetylcholine in physostigmine- but not in neostigmine-treated rats
B. Baranowska	371	Are disturbances in opioid and adrenergic systems involved in the hormonal dysfunction of anorexia nervosa?
M. B. Stein and T. W. Uhde	381	Thyrotropin and prolactin responses to protirelin (TRH) prior to and during chronic imipramine treatment in patients with panic disorder
G. Laakmann, T. Munz, A. Hinz and U. Voderholzer	391	Influence of clenbuterol, a β-adrenergic agonist, on desipramine induced growth hormone, prolactin and cortisol stimulation
R. W. Dittmann, M. H. Kappes, M. E. Kappes, D. Börger, H. Stegner, R. H. Willig and H. Wallis	401	Congenital adrenal hyperplasia I: gender-related behavior and attitudes in female patients and sisters
R. W. Dittmann, M. H. Kappes, M. E. Kappes, D. Börger, H. F. L. Meyer-Bahlburg, H. Stegner, R. H. Willig and H. Wallis	421	Congenital adrenal hyperplasia II: gender-related behavior and attitudes in female salt-wasting and simple-virilizing patients
F. Lechin, B. van der Dijs, G. Vitelli-Florez, S. Lechin-Baez, J. Azocar, A. Cabrera, A. Lechin, H. Jara, M. Lechin, F. Gomez and L. Rocha	435	Psychoneuroendocrinological and immunological parameters in cancer patients: involvement of stress and depression
J. Blaney, M. Sothmann, H. Raff, B. Hart and T. Horn	453	Impact of exercise training on plasma adrenocorticotropin response to a well-learned vigilance task
V. Coiro, L. d'Amato, C. Marchesi, L. Capretti, R. Volpi, G. Roberti, L. Cerri and P. Chiodera	463	Luteinizing hormone and cortisol responses to naloxone in normal weight women with bulimia
P. A. Newhouse, T. Sunderland, P. K. Narang, A. M. Mellow, J. B. Fertig, B. A. Lawlor and D. L. Murphy	471	Neuroendocrine, physiologic, and behavioral responses following intravenous nicotine in nonsmoking healthy volunteers and in patients with Alzheimer's disease
Short Communications		
J. R. Seckl, J. C. Campbell, C. R. W. Edwards, J. E. Christie, L. J. Whalley, G. M. Goodwin and G. Fink	485	Diurnal variation of plasma corticosterone in depression
V. Dhar and B. E. Pearson Murphy	489	Double-blind randomized crossover trial of luteal phase estrogens (Premarin®) in the premenstrual syndrome (PMS)
Announcements	495

PSYCHONEUROENDOCRINOLOGY
AUTHOR AND KWIC INDEXES
VOLUME 15, 1990

Both the author and the Key-Word-In-Context (KWIC) indexes list the volume number and the first page for each citation. In the author index, authors of every article are listed. In the KWIC index, each significant work of every title is listed alphabetically, within the context of its title. (Each listing includes a portion of the title just preceding and just following the key word.) For example, to conduct a search for all citations on 'cortisol', one also should look under the alternate terms 'adrenocortical' and 'corticosteroids' to be certain all pertinent information is retrieved.

AUTHOR INDEX

Aguirre, A. 193
Armario, A. 341
Azocar, J. 435

Backstrom, T. 159
Bancroft, J. 207
Baranowska, B. 371

CURRENT ADVANCES IN NEUROSCIENCE

Chief Editor: **H SMITH**, *University of Leicester, UK,*
Editorial Office: **CABS Office**, *132 New Walk, Leicester LE1 7QQ, UK*

Current Advances in Neuroscience is a monthly publication from the Current Awareness in Biological Sciences (CABS), Database, designed to provide biologists working in any area of the subject with a current literature searching service which is fast, comprehensive, economical and, above all, easy to use. By retrieving more than 30,000 neuroscience titles annually, *Current Advances in Neuroscience* enables pure and applied neuroscientists to keep abreast of the ever-increasing literature being published in their subject area.
More than 1,200 biological journals covering all aspects of neuroscience are scanned to provide a subject-categorized listing of titles, authors, bibliographic details and authors' addresses. Titles are presented under appropriate subject headings with full cross-referencing.
Reprints of any article cited in this journal can be ordered through a document delivery service. Full details are available on request.

Major Subject Areas Covered Include:
Neurochemistry; Molecular biology and neurogenetics; Developmental neuroscience; Transplantation and regeneration; Nerve and glial cell biology; Nerve structure and function; Peripheral nervous system: physiology and pharmacology; Central nervous system: physiology and pharmacology; Blood brain barrier; Cerebral spinal fluid; Neurotransmitters and synaptic transmission; Ion channels; Integrative neurophysiology; Sensory systems: physiology and pharmacology; Behavioral pharmacology; Psychoneuroimmunology; Neurotoxins and toxins used as research tools; Invertebrate neurophysiology; Neuropathology; Neural networks; Techniques.

INTERNATIONAL JOURNAL OF DEVELOPMENTAL NEUROSCIENCE

THE OFFICIAL JOURNAL OF THE INTERNATIONAL SOCIETY FOR DEVELOPMENTAL NEUROSCIENCE

Editor-in-Chief: **J REGINO PEREZ-POLO**, *Department of Human Biological Chemistry and Genetics, Gail Borden Bldg, Room 436 (F52), UTMB, Galveston, TX 77550, USA*

Under the distinguished editor-in-chief, J Regino Perez-Polo, *International Journal of Developmental Neuroscience (IJDN)* has gained a reputation for publishing original, peer-reviewed papers on many aspects of the scientific study of the nervous system. The journal offers authoritative, timely research on both basic and clinical aspects of the developing nervous system, ranging from simpler nervous systems in invertebrates and *in vitro* growth of neural cells to regenerative processes under experimental and clinical conditions. *IJDN* also welcomes papers on the molecular and cell biology of the aging nervous system. The international Editorial Board, appointed by the Editor-in-Chief in consultation with the Publications Committee for the International Society for Developmental Neuroscience, consists of well-known specialists in all major branches of neuroscience. *International Journal of Developmental Neuroscience* strives to facilitate the transfer of basic information to clinical applications and to promote an understanding of the fundamental mechanisms of neural growth, repair and development.

R J COHR, S TORELLI, K N PRASAD, J EDWARDS-PRASAD & O K SHARMA (USA), Effect of vitamin E succinate and a cAMP-stimulating agent on the expression of c-*myc*, N-*myc* and H-*ras* in murine neuroblastoma cells.
B R SHIVAKUMAR, H K ANANDATHEERTHAVARADA & V RAVINDRANATH (India), Free radical scavenging systems in developing rat brain.
G R JACKSON, B C MORGAN, K WERRBACH-PEREZ & J REGINO PEREZ-POLO (USA), Antioxidant effect of retinoic acid on PC12 rat pheochromocytoma.
L J WILLMORE & W J TRIGGS (USA), Iron-induced lipid peroxidation and brain injury responses.
W B ALSHUAIB & M A FAHIM (USA), Aging increases calcium influx at motor nerve terminal.
